JAKKA LAKSHMI VENKATA MANOJ KUMAR

Machine Learning & AI Student | Data Science Enthusiast

Phone: 6304956293 Email: lj2345@srmist.edu.in Location: Chennai, Tamil Nadu, India
LinkedIn: linkedin.com/in/manoj-jakka-4a8023334 GitHub: github.com/manojjakka

SUMMARY

B.Tech Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning (CGPA: 9.00). Built and evaluated machine learning models including a Random Forest classifier achieving 87% accuracy and 0.83 AUC-ROC for predictive classification. Experienced in the full data science workflow: data preprocessing, exploratory analysis, model building, evaluation, and dashboard development using Python. Hands-on exposure to Generative AI and applied data analytics through industry job simulations with Deloitte, TATA, and HP LIFE.

EDUCATION

SRM Institute of Science and Technology, Ramapuram, Chennai, TN 2023 – 2027
B.Tech, Computer Science and Engineering — Artificial Intelligence and Machine Learning; CGPA: 9.00

NRI Junior College, Palakaluru, Guntur 2021 – 2023
Class XII, MPC (Board of Intermediate); Percentage: 94.7%

Narayana, Markapur, Prakasam 2021
Class X, Secondary School of Education, AP; Percentage: 99%

SKILLS

Programming Languages: Python, Java, JavaScript, HTML, CSS
Machine Learning: Random Forest, Classification, Model Evaluation (Accuracy, AUC-ROC), Feature Engineering, Exploratory Data Analysis (EDA)
Libraries & Frameworks: Pandas, NumPy, Matplotlib, Scikit-learn, Streamlit, Flask, Django
Databases: SQLite, MySQL
Core Domains: Machine Learning, Artificial Intelligence, Generative AI, Data Analysis, Data Visualization, Web Development
Tools & Platforms: Git, GitHub
Currently Learning: Natural Language Processing (NLP), Data Structures & Algorithms
Languages Spoken: Telugu, English, Hindi, Tamil

PROJECTS

Road Condition Monitoring Analysis *Course Project — 21CSS303T* Jun 2026
SRM Institute of Science and Technology · Python, Scikit-learn, Pandas, Streamlit · Data Science / Machine Learning

- Built a Random Forest classifier to predict road damage severity from ~1,000 records across Indian cities, achieving 87% accuracy and 0.83 AUC-ROC.
- Tuned a 100-tree model (max depth 15) with a stratified 80-20 train-test split; identified population density, recent case trends, and mobility factors as top predictive features.
- Developed a Streamlit dashboard to visualize results, flagging approximately 408 high-severity roads for prioritized maintenance.

Retail Inventory Management Analysis GitHub Repository Jan 2026 – Present
SRM Institute of Science and Technology · Python, Pandas, NumPy, Matplotlib · Data Science / Machine Learning

- Analyzed 6 months of sales data from a retail store dataset to identify trends, demand patterns, and stock optimization opportunities.
- Built a predictive model achieving 94% accuracy to support inventory and stock-level decisions.
- Applied data preprocessing and visualization techniques to generate insights for reducing overstocking and stockouts.

Student Mental Healthcare System GitHub Repository Dec 2025 – Present
SRM Institute of Science and Technology · Python, Flask/Django, HTML, CSS, JavaScript, SQLite/MySQL · AI / Web Application

- Designed a 10-question assessment model with secure login and automated scoring to evaluate student mental well-being and stress levels.
- Tested the system locally with approximately 60-70 students from the classroom to validate usability and scoring accuracy.
- Applied AI concepts and full-stack development to address real-world student wellness challenges.

CERTIFICATIONS

Java Programming Aug 2025
WAVE Infotech — A+ grade; core Java concepts, programming fundamentals, and practical implementation skills.

Deloitte Technology Job Simulation (Generative AI & Development) Feb 2026
Deloitte — Practical experience in coding, development, and Generative AI-based problem solving.

AI for Business Professionals Feb 2026
HP LIFE — Self-paced program (1 week, ~4-5 hours); covered prompt engineering, ethical AI practices, and integrating AI tools into workflow optimization.

GenAI Powered Data Analytics Job Simulation Feb 2026
TATA (Forage) — Exploratory data analysis, AI-based delinquency prediction, business reporting, and data storytelling.

AI Fundamentals with IBM SkillsBuild Feb 2026
Cisco Networking Academy — Foundational AI concepts, machine learning basics, and ethical considerations in AI systems.

Digital Skills: Artificial Intelligence Mar 2026
Accenture (FutureLearn) — AI concepts, industry applications, automation, and future skill requirements for AI-driven environments.

Introduction to Data Science Job Simulation Apr 2026
Forage — Data aggregation, analysis, anonymisation, analytical approach design, and database design.

ACHIEVEMENTS

- Finalist, AI-domain Hackathon, SRM Institute of Science and Technology (Mar 2026).
- Participated in multiple college-level coding contests, strengthening problem-solving and programming skills.

VOLUNTEERING

Student Coordinator, NSS — Coordinated NSS activities focused on self-discipline and communication skills development, building leadership and team coordination skills.
Feb 2024
